TERMINAL DISCLAIMER TO OBVIATE A DOUBLE PATENTING REJECTION

Assistant Commissioner for Patents Washington, D.C. 20231

P. O. Box 7068 Pasadena, CA 91109-7068 March 12, 2002

Commissioner:

I hereby certify that I am the attorney of record in this application and am authorized to execute this disclaimer on behalf of the assignee; and I further certify that the evidentiary documents have been reviewed and that assignee, to the best of my knowledge and belief, has title to the above-identified application and patent.

Smith International Inc., a Delaware corporation having a place of business at 16740 Hardy Street, Houston, Texas 77032, represents: (a) that it is the assignee of the entire interest in U.S. patent Application No. 09/494,877, filed January 31, 2000, and entitled Low Coefficient of Thermal Expansion Cermet Compositions, by virtue of the assignment recorded in the United States Patent and Trademark Office at reel 010887, frame 0540; and (b) that it is the assignee of the entire interest in U.S. Patent No. 6,063,502, by virtue of the assignment recorded at reel 9034, frame 0774.

Smith International Inc. hereby disclaims the terminal part of any patent granted on the above-identified application, which would extend beyond the expiration date of U.S. Patent No. 6,063,502, and hereby agrees that any patent so granted on the above-identified application shall be enforceable only for and during such period that the legal title thereto shall be the same as the

legal title to U.S. Patent No. 6,063,502, this agreement to run with any patent granted on the above-identified application and to be binding upon the grantee, its successors or assigns.

I declare that all statements made herein of my own knowledge are true, and that all statements made on information and belief are believed to be true; and further, that these statements are made with the knowledge that willful false statements and the like, so made, are punishable by fine or imprisonment, or both, under 18 U.S.C. § 1001, and further that such willful false statements may jeopardize the validity of the application and any patent issuing thereon.

Respectfully submitted,
